### PART II: REQUESTOR'S POSITION SUMMARY AND PRINCIPAL DOCUMENTATION

**Requestor's Position Summary:** "We have found in this audit the payment received is not considered a 'fair and reasonable' amount for the ER line item charge. As a common practice, we review the ER charges **for at least a 75%** line item reimbursement. We came to this conclusion as this is a standard practice with most carriers. In addition, the following line item(s) should be reimbursed at MARS, which is listed in the Fee Schedule. CPT 70450...99284..." "We respectfully ask that you reprocess the ER line item charge(s) at 75% and the above listed CPT at Medicare fee schedule X 125% minus your previous payment."

## **Principal Documentation:**

- 1. DWC 60 Package
- 2. Medical Bill(s)
- 3. EOB(s)

## PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code § 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Medical Reimbursement*, effective May 2, 2006 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on July 12, 2007.

- 1. For the services involved in this dispute, the respondent reduced or denied payment with reason code:
  - Z585-The charge for this procedure exceeds fair and reasonable.
  - Z652-Recommendation of payment has been based on a procedure code which best describes services rendered.

- Z710-The charge for this procedure exceeds the fee schedule allowance.
- Z306-Significant, separately identifiable evaluation and management service by the same physician on the day of a procedure.
- Z951-We are unable to recommend an additional allowance since this claim was paid in accordance with the state's fee schedule guidelines, First Health bill review's usual and customary policies, and/or was reviewed in accordance with the provider's contract with First Health.
- 2. A review of the Explanation of Benefits indicates that a PPO reduction was not taken. In addition, neither party to this dispute submitted documentation to support a contractual agreement between the parties exists; therefore, the EOB denial of "Z951" is not supported.
- 3. This dispute relates to emergency services with radiological and laboratory studies provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(a)(3) and (a)(5), effective August 1, 1997, 22 TexReg 6264, which state that such services are not covered by this guideline and shall be reimbursed at a fair and reasonable rate until the issuance of a fee guideline addressing these specific services.
- 4. Division rule at 28 TAC §134.1, effective May 2, 2006, 31 TexReg 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
- 5. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
- 6. Division rule at 28 TAC §133.307(c)(2)(F)(iii), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the Labor Code, Division rules, and fee guidelines impact the disputed fee issues." Review of the submitted documentation finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed under Division rule at 28 TAC §133.307(c)(2)(F)(iii).
- 7. Division rule at 28 TAC §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed by Division rule at 28 TAC §133.307(c)(2)(F)(iv).
- 8. Division rule at 28 TAC §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
  - The requestor's position statement states that "We have found in this audit the payment received is not considered a 'fair and reasonable' amount for the ER line item charge. As a common practice, we review the ER charges for at least a 75% line item reimbursement. We came to this conclusion as this is a standard practice with most carriers. In addition, the following line item(s) should be reimbursed at MARS, which is listed in the Fee Schedule. CPT 70450...99284..."
  - The requestor does not explain how payment of 75% of billed charges would result in a fair and reasonable reimbursement.
  - The Division has determined that a reimbursement methodology based upon a percentage of billed charges, does
    not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the
    Acute Care Inpatient Hospital Fee Guideline adoption preamble which states at 22 Texas Register 6276 (July 4,
    1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be

administratively burdensome for the Commission and system participants, and would require additional Commission resources."

- The requestor did not submit documentation to support that most carriers had accepted their proposed methodology.
- The requestor asked in their position summary for "We respectfully ask that you reprocess the ER line item charge(s) at 75% and the above listed CPT at Medicare fee schedule X 125% minus your previous payment."
- The requestor did not discuss or explain how it determined that 125% of the Medicare rate would yield a fair and reasonable reimbursement.
- The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
- The requestor did not discuss or explain how payment of the requested amount would ensure the quality of medical care, achieve effective medical cost control, provide for payment that is not in excess of a fee charged for similar treatment of an injured individual of an equivalent standard of living, consider the increased security of payment, or otherwise satisfy the requirements of Texas Labor Code §413.011(d) or Division rule at 28 TAC §134.1.
- The requestor did not discuss or support that the proposed methodology would ensure that similar procedures provided in similar circumstances receive similar reimbursement.
- The requestor did not submit nationally recognized published studies, published Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments to support the proposed methodology.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

9. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(c)(2)(F)(iii), §133.307(c)(2)(F)(iv) and §133.307(c)(2)(G). The Division further concludes that the requestor failed to meet its burden of proof to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
